

The leading design principle:

Perfect solution is not the one, where you can not add anything else. Perfect solution is the one, which fulfills it's goal and there is nothing to be removed.

Server Side Integrations

You are free to develop any application or procedure working with server side functions.

- Integrate any web site
- Create custom extranets
- Use Atollon's messaging functions
- Create Sales Orders by eShop solutions
- Integrate any accounting/ERP solutions

See Atollon's [API documentation](#) & [examples](#) to learn more.
